SYNERGISTIC EMERGENCE IN THE 21ST CENTURY

Global Conversations

August/September 2006

COMMENTS FROM THE LAST NEWSLETTER

Dearest Audrey,

This is the best newsletter yet.

I am very grateful to have received it.

[I] just returned from a Stanford trip to China. We had a very good time and the experience was profoundly educational. So many people, the haze that covers almost all of their cities.... it is a big undertaking to make the impossible... possible AND it is the job to be done.

Jill, California

Audrey,

I just looked at the newsletter. It's great! One of my CEO groups was just talking about global warming at their last meeting. I'm going to forward your newsletter to them.
Bravo.

My best,

Karen, New Mexico

Audrey,

Yet again, a very well done newsletter!

Did you read the Harvard Psychologist's editorial on Global Warming, and why it is so easily ignored? I thought it was very well written, and helped me understand why the entire world is not in a panic over global warming. If your spamguard caught it because it was a forward, it's labeled "If only gay marriage caused global warming...", and it's from the LA times.

Amy, Colorado

Hi Audrey!

Loved this newsletter. Thanks for letting many people know that what one individual can do will contribute to the quality of life of others.

Thanks,

Sister Nuria Martinez, Guatemala
