

Paradigm Nouveau Enterprises, LLC

New Light Campaign Application

PNE's State Capitol Project works as follows:

1. PNE will donate CFLs to every state capitol building in the U.S., at no cost to taxpayers. Private funding has been set aside for this special awareness campaign to educate the public.
2. For each state, a lead state legislator needs to be identified and represent his or her capitol building in this project.
3. In educating the public, PNE will require a press conference to announce this initiative at each state capitol, and the corresponding savings in costs and CO2 emissions.
4. Once the project is established by contacting PNE, we will need to work with the local maintenance group to determine the number and proper wattage of bulbs to be replaced.

Please provide the following information:

STATE: _____

CAPITOL BUILDING ADDRESS: _____

LEAD CONTACT PERSON: _____
